SEATING EXCELLENCE AT WORK

DELPHI

**MERRYFAIR®**

**Delphi** product family consists of 4 models to meet different needs and budgets in the same office. Swivel chairs comes in three backrest heights, a high-back(*with headrest*), a medium-back(*without headrest*) and a low-back. Lastly, a low-back four-legged side chair for visitors completes the range.

**Delphi** comes in two finishing lines. In the Basic line, the seat, back and armrest are upholstered in fabric or synthetic coverings only in front while leaving the back-shell in black plastic finish, creating a stylish two-tone appearance. For an additional fee, the Premium line features leather upholstery in front as well as a leather-wrapped back-shell, complemented by a thicker contrast colour stitching, to create a classy luxury object.

499 MA A49 V

Like the historical **Delphi** town in Greece where people came to rever the wise oracle, this armchair should attract persons of similar wisdom and authority.

The deep cosy wrap-around backrest shape with plush cushioning, cossets you and gives a sense of security and tranquility, leaving you to mind what matters most. Indulge in **Delphi**'s luxurious materials, namely full leather upholstery with stylish contrast stitching, and polished aluminium members.

The high-back swivel chair combines a headrest adjustable for height by friction. The chrome-plated finish of the headrest metal components provides a classy touch.

An advanced 4-point synchronised mechanism ensures ergonomics and luxury go hand in hand. All swivel chairs are equipped with these mechanism features. A stepless recline lock allows locking in any recline angle, instead of distinct predetermined positions. A generous 25 degree recline promotes healthy back stretching and posture changes throughout the workday. A crank-lever located by the seat side conveniently adjusts recline force to suit each individual's weight.

The four-legged side chair serves as a visitor chair to complement *Delphi* swivel chairs.

Beefy rectangular rear legs originating from the armrests create an iconic yet refined design.

491 NA A49 S

For the standard basic line, only the seat, backrest and armrest panels are upholstered in fabric or synthetic-covering. For optional premium line (*available in leather upholstery only*), the rear of the back-shell is wrapped in leather in addition to leather upholstery. Leather and synthetic-covering upholstery will come with thicker, contrast-colour thread stitching.

Seat padding is moulded of polyurethane foam whereas the backrest, headrest and armrest employ dual-layer, dual-density foams. Seat, backrest, headrest and armrest shells are moulded in black recyclable polypropylene.

All swivel chair models employ a four-point synchronised recline mechanism featuring gas seat height control, recline-tension adjustment, and stepless recline lock. The mechanism main structure is diecast aluminium while control levers and knobs are moulded in polypropylene, all in black textured finish.

The backbone supports are diecast aluminium in a smooth polished finish.

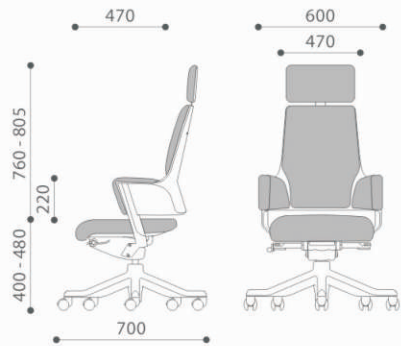

A 70cm diameter five-point base(V) in black polyamide (*nylon*) comes as standard. A diecast aluminium version of same design(VP) in polished finish is optional. All are equipped with twin-wheel hooded castors in black polyamide (*nylon*).
