DESIGN

Like the Faberge egg, Ovo's exquisite design is unlike most contemporaries. It does not resemble current office design style. It may not please everyone's taste, nor does it attempt to. Ovo appeals to the few with individualistic taste. Those wanting an office interior to stand out from the rest. Fashion houses, advertising agencies, design ateliers. Those who dare to be different.

Elastomeric Mesh
provides elastic support, yet allowing ventilation for airy comfort.

Soft PU Armpad
in an ellipsoid shape eliminates hard edges and elbow sores.

4-way Armrests
adjusts for height (100mm) width(50mm) depth (60mm) swivel (+/-15)

Side Controls
for recline tension, locking and seat height allows adjustment while being seated.

Synchro mechanism
hidden to keep the look clean and completes the egg aesthetic.

Diecast alloy base
exceptional strength and durability while being 100% recyclable.

Ovo

by Merryfair

Mesh surface create a light and airy, yet technical appearance. This translucent mesh is constructed using high-tensile elastomeric filaments that do not lose tension over time.

A large 'waterfall' rolloff means you can barely feel the seat front edge.

2 base options give Ovo very different personalities. A 5-star base suits normal work task-seating. A Trumpet base with auto-return column makes a design statement in waiting and relaxation lounges.

SHELL COLOUR

Black
Taupe
Ivory

SEAT

Elastomeric Mesh
Padded Upholstery

ARMREST

4-way Adjustable
No armrest

BASE

Trumpet auto-return

Specifications

Exterior seat and back shells of polypropylene in 3 standard colour options: Black, Taupe or Ivory. (100% recyclable)

Inner seat and back shells of polypropylene (100% recyclable).

Back and Seat Mesh : 76% elastomer / 24% polyester high tensile mesh.

Optional Seat upholstery in fabric, leather or vinyl on moulded polyurethane foam (recycable into carpet padding, wadding etc)

Synchro-Mechanism : Adjustable Tilt tension and Multi-position Tilt Lock control. Main structure of diecast aluminum alloy and steel stamping. Levers and knob of molded black polypropylene. Internal hardware of steel.

Armrest : 4-way Adjustable for height, width, depth and swivel angle. Armpad in black, of molded polyurethane with steel insert. Armrest parts of molded polypropylene and steel stamping, in black finish (100% recyclable).

5-prong Base of diecast aluminum alloy in standard black epoxy powder-coat or optional polished finish. (100% recyclable)

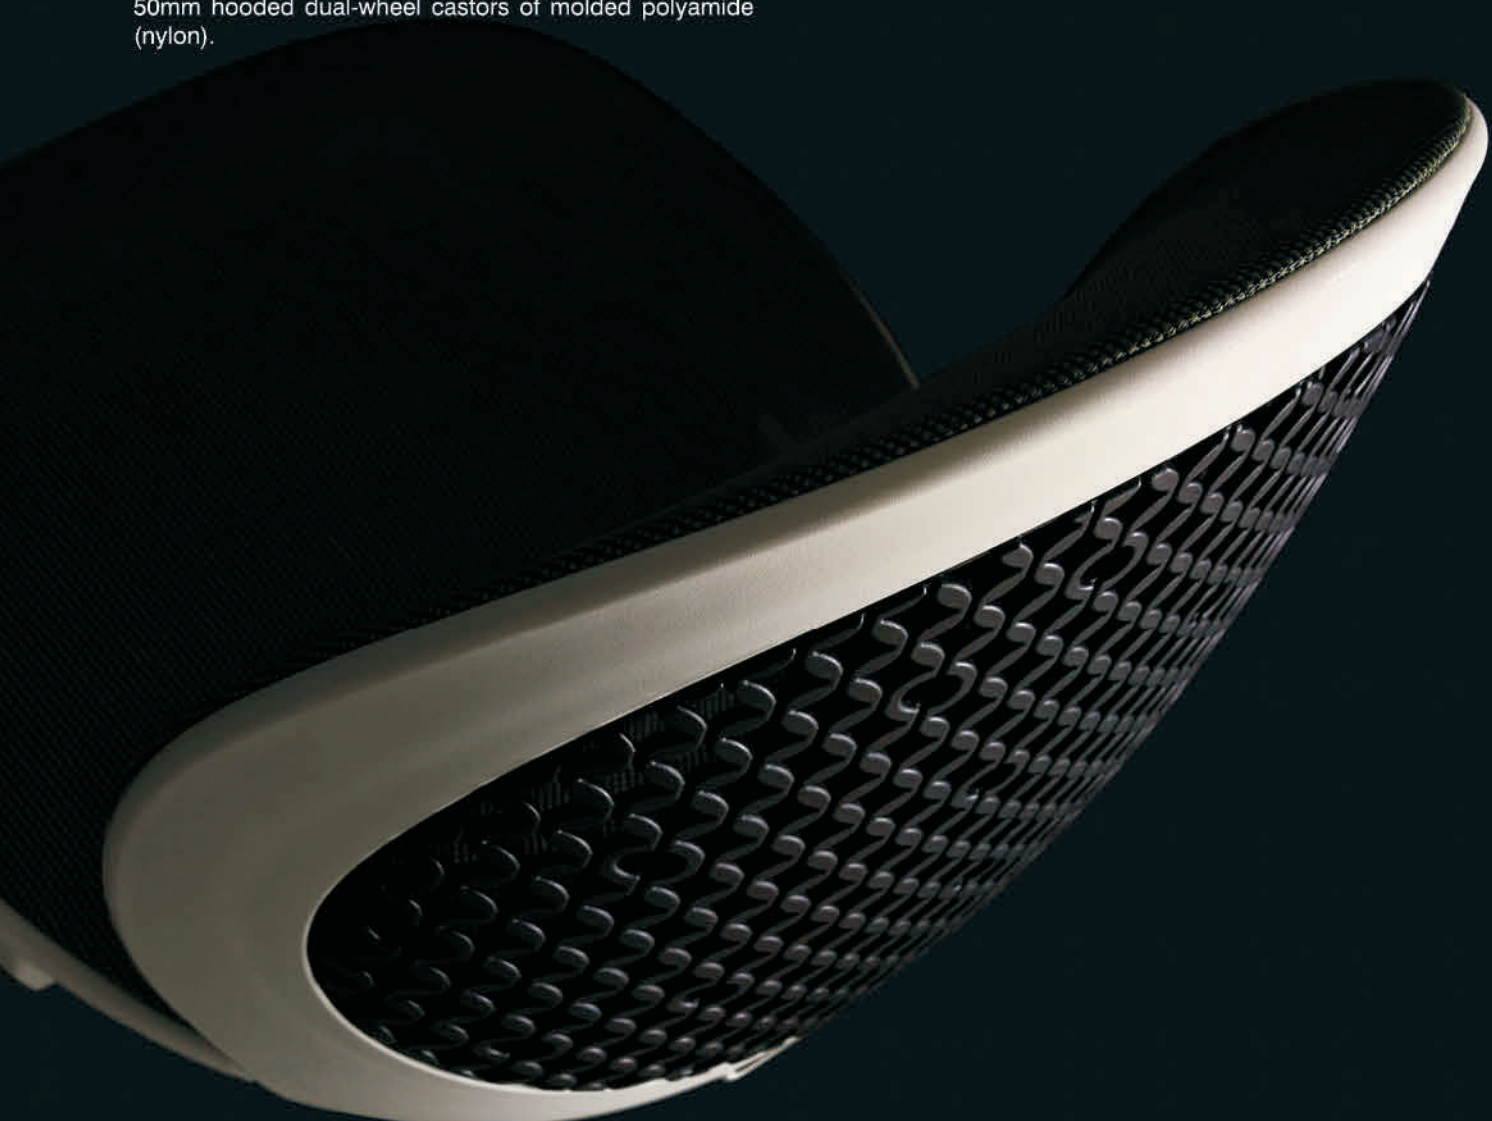

50mm hooded dual-wheel castors of molded polyamide (nylon).

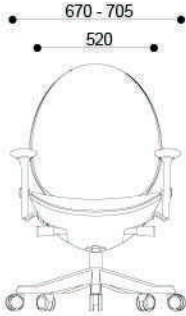

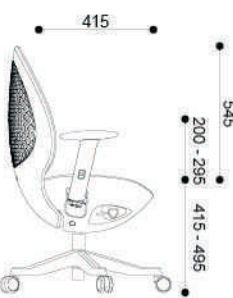

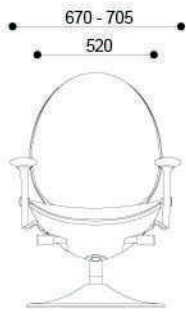

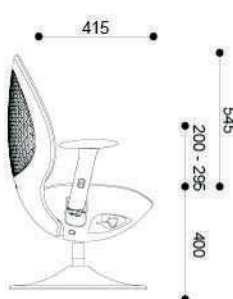

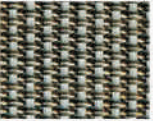

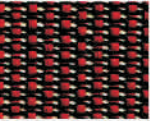

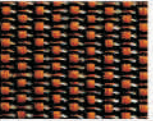

Enviromental

Almost all components (up to 85% in 667YJA66VB) can be easily diassembled using normal tools and separated into 100% recyclable materials (PP, aluminum, steel). Recycled material content is also used in manufacture where possible (up to 27% for 667YJA66VB). No PVC is used.

Safety and Durability

Ovo is designed and certified to BIFMA X5.1:2002 standards for durability and safety.
