Prolonged static postures hurt your back

No matter how comfortable your chair is, static seated postures are bad for Spine and can cause musculo-skeletal injuries & pain, even if you exercise regularly.

What 30 – 40 minutes of static posture can do to you:

Stiffness in the Joints

64% of Indians spend approx. 9 hours sitting at their desk

Pressure on Spine

76% employees have suffered from musculo-skeletal pain in the last 6 months

Swelling in Ankles

15% employees take 3–4 days leave in 2 months due to this condition

Staying active can prevent back pain

Regular posture changes keep blood flowing and help prevent fatigue. But moving around or sitting less isn't always practical in a busy workday. That's where the Motion Mesh Chair comes in – designed to support dynamic movement even while seated. It gives your body the flexibility it needs, reducing the strain and risks of staying in one position for too long.

Motion Mesh Chair: Adapts to your posture, keeps you active.

Motion Mesh chair's **EasyFlex** is an innovative system that enables the user to adopt dynamic, 3-dimensional body movements while being seated. This flexibility, combined with an adjustable counter-pressure, ensures optimal back support & blood circulation for the user across a range of seated postures.

The chair has 3-dimensional movement. With every simple lean, weight shifts seamlessly from one muscle group to another – the closest thing to taking a walk without leaving your chair.

The Motion Mesh Chair's unique flex and spring-back action stems from advanced design engineering and extensive material science research. Its seat and back are firmly integrated with the base frame and cantilevered to enable multi-dimensional movement – all without the need for complex mechanisms or manual adjustments.

The GREENGUARD Certification Program gives assurance that products designed for use in indoor spaces meet strict chemical emission limits, which create healthier interiors. The certification qualifies for LEED credits and IGBC credits.

In keeping with the Godrej policy of continuous development and improvement, the design, dimension and specification may be updated without prior notice or obligations. Form, Colour and Finish of product in this document are representative of design intent and may vary from actual. Colour options depicted in this catalogue are as close to what modern printing processes allow. All dimensions are in 'cm' and are subject to commercial tolerance. Our products are meant for indoor use only.
